In this issue we showcase, the **PA FAMILY NETWORK**, one of our partners in supporting families' needs using the **"Charting the LifeCourse Tools"**

to develop a vision for an Everyday Life,

think about what they need to know and do,

identify how to find or develop supports,

and discover what it takes to have the full and meaningful lives they envision.

The PA Family Network is supported by the Pennsylvania Office of Developmental Programs (ODP) whose mission is to support Pennsylvanians with developmental disabilities to achieve greater independence, choice and opportunity in their lives. In 2016, ODP joined the *national Community of Practice: Supporting Families throughout the Lifespan*.

The **Community of Practice for Supporting Families** initiative involves working to transform state policies, practices and systems to better assist and support families that include a member with intellectual disabilities and/or autism. The goal of the collaboration is to support families in ways that maximize their capacity to facilitate the achievement of self-determination, integration and inclusion in all facets of community life for their family members. **The PA Family Network was created to support families and the major elements of the Community of Practice goals.**
