## THE BUZZ ON THE LIFECOURSE FRAMEWORK

**DEEPER DIVE** is an informative training of the LifeCourse Framework to include building blocks to think differently about what it means to support individuals with disabilities and their families; providing tools for planning and having conversations for a good life and how to achieve it; and real life examples showing the planning, practice and policy of LifeCourse in action. We want to recognize the vast potential within our students and to help them see it within themselves. We want to support them in reaching that potential. All our students have the right to live, love, work, play and pursue their life aspirations in their community.

Join us in this training to learn more how to support students with IEP(s) when using the Charting the LifeCourse Framework & Tools.

### What Is the Charting the LifeCourse?

The Charting the LifeCourse framework was created to help individuals and families of all abilities and all ages develop a vision for a good life, think about what they need to know and do, identify how to find or develop supports, and discover what it takes to live the lives they want to live. The framework is the keystone for supporting a community of learning that champions transformational change through knowledge exchange, capacity building, and collaborative engagement. ### Trajectory of Life Experiences Across the Lifespan

Individuals and families can focus on a specific life stage, with an awareness of how prior, current, and future life stages impact and influence their trajectory. It is important to have a vision for a good, quality life and have opportunities, experiences, and support to move the life trajectory in a positive direction.

### In Appreciation to LifeCourse Nexus

Why "Nexus?"

nex·us /'neksəs/ noun the central link or connection of two or more things:

LifeCourse Nexus: The intersect of ideas, collaboration, and transformation

The Charting the LifeCourse Nexus (LifeCourse Nexus) is a community of learning that brings people together to work towards transformational change within organizations, systems, and communities to support "good lives for all people."

The LifeCourse Nexus serves as the central location for the network of people that want to come, share, learn, and develop strategies for getting LifeCourse into the world for the greater good. The Charting the LifeCourse framework and tools create a common language for shaping and supporting innovation in policy, practice, procedure, and culture.
